ST. MARTIN'S LANE.

CONTENTS.

SERIES B. VOL. XCII.

No. B 642.—January 3, 1921.

PAGE

Studies in the Mechanism of Enzyme Action. I.—Rôle of the Reaction of the Medium in Fixing the Optimum Temperature of a Ferment. By Arthur Compton, M.B., D.Sc., Mackinnon Student, British Medical Association Scholar. Communicated by Prof. B. Moore, F.R.S. 1

The Effect of Certain Dietary Deficiencies on the Suprarenal Glands. By C. H. Kellaway, Fullerton Student of the Royal Society. Communicated by W. B. Hardy, Sec. R.S. (Plate 1) 6

The Growth of Seedlings in Wind. By Leonard Hill, M.B., F.R.S. (Director of the Department of Applied Physiology, National Institute for Medical Research). (Plates 2 and 3) 28

Reflex Times in the South African Clawed Frog. By W. A. Jolly. Communicated by Prof. E. Sharpey Schäfer, F.R.S. 31

Studies of Photo-synthesis in Marine Algæ.—1. Fixation of Carbon and Nitrogen from Inorganic Sources in Sea Water. 2. Increase of Alkalinity of Sea Water as a Measure of Photo-synthesis. By Benjamin Moore, F.R.S., Edward Whitley, M.A., and T. Arthur Webster 51

No. B 643.—February 1, 1921.

Studies on Synapsis. III.—The Nuclear Organisation of the Germ Cells in *Libellula depressa*. By Lancelot Hogben. Communicated by Prof. E. W. MacBride, F.R.S. (Plates 4–7) 60

Cellular Immunity: Observations on Natural and Acquired Immunity to Cobra Venom. By J. A. Gunn and R. St. A. Heathcote. Communicated by Prof. Sherrington, F.R.S. 81

The Effect of Thyroid-feeding and of Thyro-parathyroidectomy upon the Pituitrin Content of the Posterior Lobe of the Pituitary, the Cerebro-spinal Fluid, and Blood. By P. T. Herring. Communicated by Sir E. Sharpey Schäfer, F.R.S. 102

On the Myogram of the Flexor-reflex evoked by a Single Break-shock. By K. Sassa and C. S. Sherrington, Pres. R.S. 108

PAGE

No. B 644.—May 2, 1921.

On "Intertraction" between Albuminous Substances and Saline Solutions. By Sir Almroth E. Wright, M.D., F.R.S. 118

On the Local and Generalised Action of Radium and X-Rays upon Tumour Growth. By S. Russ, D.Sc., Helen Chambers, M.D., and Gladwys M. Scott, Cancer Research Laboratories, Middlesex Hospital. Communicated by Sir Walter Fletcher, F.R.S. 125

The Enzymes of *B. coli communis*. Part V.—(*a*) Anaerobic Growth followed by Anaerobic and Aerobic Fermentation. (*b*) The Effects of Aeration during the Fermentation. By E. C. Grey and E. G. Young. Communicated by Prof. F. G. Hopkins, F.R.S. 135

Anthocyanins and Anthocyanidins. Part IV.—Observations on: (*a*) Anthocyan Colours in Flowers, and (*b*) the Formation of Anthocyans in Plants. By Arthur Ernest Everest, D.Sc., Ph.D., F.I.C., and Archibald John Hall, B.Sc., A.I.C. Communicated by Prof. F. Keeble, F.R.S. 150

No. B 645.—June 1, 1921.

A Remarkable Flint Implement from Selsey Bill. By Sir E. Ray Lankester, K.C.B., F.R.S. (Plates 8–11) 162

Reversal of Asymmetry in the Plutei of *Echinus miliaris*. By Hiroshi Ohshima. (With Note by Prof. E. W. MacBride, F.R.S.) Communicated by Prof. E. W. MacBride, F.R.S. 168

The Energy involved in the Electric Change in Muscle and Nerve. By A. V. Hill. F.R.S. 178

Croonian Lecture.—Release of Function in the Nervous System. By Henry Head, M.D., F.R.S. 184

Preliminary Report of the Mackie Ethnological Expedition to Central Africa. By the Rev. John Roscoe. Communicated by the Mackie Anthropological Expedition Committee. (Plates 12–16) 209

No. B 646.—July 1, 1921.

A Quantum Theory of Colour Vision. By J. Joly, Sc.D., F.R.S. 219

The Effect of Red Fatigue on the White Equation. By F. W. Edridge-Green, C.B.E., M.D., F.R.C.S., Special Examiner and Adviser to the Board of Trade on Colour Vision and Eyesight. Communicated by Prof. W. M. Bayliss, F.R.S. 232

Dictyokinesis in Germ Cells, or the Distribution of the Golgi Apparatus during Cell Division. By R. J. Ludford, B.Sc. (Lond.), and J. Brontë Gatenby, B.A., B.Sc., D.Phil. (Oxon.). Communicated by Prof. J. P. Hill, F.R.S. (Plates 17 and 18) 235

Break-shock Reflexes and "Supramaximal" Contraction-response of Mammalian Nerve-Muscle to Single Shock Stimuli. By C. S. Sherrington, M.D., Pres.R.S. 245

No. B 647.—November 1, 1921.

PAGE

The Development of Vegetation in the English Lakes, considered in relation to the General Evolution of Glacial Lakes and Rock Basins. By W. H. Pearsall. Communicated by A. G. Tansley, F.R.S. 259

A Method for Investigating the Hæmolytic Activity of Chemical Substances. By Eric Ponder. Communicated by Sir E. Sharpey Schäfer, F.R.S. 285

Observations on the Effects of Fat Excess on the Growth and Metamorphosis of Tadpoles. By Robert McCarrison, M.D., D.Sc., LL.D., Lt.-Colonel I.M.S. Communicated by Prof. C. S. Sherrington, Pres. R.S. 295

Experimental Researches on Vegetable Assimilation and Respiration. XIV.—Assimilation by Submerged Plants in Dilute Solutions of Bicarbonates and of Acids: an Improved Bubble-Counting Technique. By A. J. Wilmott. Communicated by Dr. F. F. Blackman, F.R.S. 304

No. B 648.—December 1, 1921.

Observations on Reflex Responses to Rhythmical Stimulation in the Frog. By Kanshi Sassa, M.D., Tokio. Communicated by Prof. C. S. Sherrington, Pres. R.S. 328

On the Effects of Constant Galvanic Currents upon the Mammalian Nerve-Muscle and Reflex Preparations. By Kanshi Sassa, M.D., Tokio. Communicated by Prof. C. S. Sherrington, Pres. R.S. 341

On the Longevity of certain Species of Yeast. By Arthur R. Ling and Dinshaw Rattonji Nanji. Communicated by Sir Edward Thorpe, F.R.S. 355

On the Origin and Destiny of Cholesterol in the Animal Organism. Part XII.—On the Excretion of Sterols in Man. By John Addyman Gardner and Francis William Fox (Beit Memorial Fellow). Communicated by Prof. A. D. Waller, F.R.S. 358

A Quantitative Analysis of the Growth of *Helianthus annuus*. Part I.—The Respiration of the Plant and of its Parts throughout the Life Cycle. By Franklin Kidd, Cyril West (Research Workers, Food Investigation Board), and G. E. Briggs (Demonstrator in Plant Physiology, Botany School, Cambridge). Communicated by Dr. F. F. Blackman, F.R.S. 368

Idio-Ventricular Periodicity. By D. H. de Souza and J. A. Hewitt. Communicated by Prof. W. D. Halliburton, F.R.S. 385

OBITUARY NOTICES OF FELLOWS DECEASED.

Paul Ehrlich i
S. Schwendener viii
Sir Thomas Richard Fraser (with portrait) xi
Sir William Osler (with portrait) xvii
John Gilbert Baker xxiv
Charles Lapworth (with portrait) xxxi
Leonard Doncaster (with portrait) xli
